CAREER OBJECTIVE

Motivated and detail-oriented Computer Science graduate seeking an entry-level Fullstack Developer position where I can apply my skills in HTML, CSS, JavaScript, React and Python to build responsive and user-friendly web applications. Eager to learn new technologies and contribute to organizational growth.

PROJECTS

College Website with AI Chatbot & Attendance Management System

• Developed a fully responsive college website using HTML, CSS, and JavaScript.
• Integrated AI chatbot functionality for student queries.
• Built attendance management system with calendar date picker.
• Designed user-friendly dashboard interface.

Personal Portfolio Website

• Created a multi-page responsive portfolio (Home, About, Skills, Projects, Contact).
• Implemented smooth animations and modern UI design.
• Hosted using GitHub.
